

**Brief Description Of The Drawing**

[0005] For a fuller understanding of the nature and objects of the invention, reference should be made to the following detailed description of a preferred mode of practicing the invention, read in connection with the accompanying drawings, in which:

[0006] FIG. 1A is a front perspective assembly diagram illustrating assembly of an image capture module according to the invention;

[0007] FIG. 1B is a rear perspective assembly diagram illustrating assembly of an image capture module according to the invention;

[0008] FIG. 1C is a front perspective view of an assembled image capture module according to the invention;

[0009] FIG. 1D is a rear perspective view of an assembled image capture module according to the invention;

[0010] FIG. 1E is a representation of a preferred illumination and aiming pattern projected by a module in accordance with the invention;

[0011] FIG. 1F is a block diagram for illustration of functional and control features of the invention;

[0012] FIG. 2A-<sup>2I</sup>~~2E~~ are perspective views of various optical reader housings in which the invention may be incorporated;

[0013] FIG. 3 is a side view of a prior art reader illustrating a prior art multiple circuit board arrangement.
